

harmoniphon vexed for melodicas

Stephen Chase

(Accidentals apply only to notes they immediately precede)

Dynamics mostly soft, Tempo 4-8 seconds per chord

- = staccato
- = sustain until next chord (or beyond if next chord shares the same sustained pitch - join as seamlessly as possible)

- Play only 1 note from a chord for any 20 chords
- Play only 2 notes from a chord for any 14 chords
- Play all 3 notes from a chord for any 5 chords
- Play 0 notes from a chord for any 9 chords (pause)

Use chance to determine which chords in each case - decisions should be independent for each player.

Stand/sit well apart from each other (possibly mobile), begin together and proceed independently

Sheffield, August 2009
