

Table of Contents

1	Introduction.....	5
2	Basics.....	7
2.1	Preliminaries.....	7
2.2	Score.....	8
2.3	Simplifying Positions.....	11
2.4	Rich Environment.....	13
3	Local Endgame.....	19
3.1	Simple Gote without Follow-up.....	19
3.2	Black's Follow-up.....	22
3.3	White's Follow-up.....	27
3.4	Follow-ups of Both Players.....	30
3.5	Non-Existence of Local Double Sente.....	37
3.6	Black's Options.....	41
3.7	White's Options.....	44
3.8	Count and Net Profit.....	48
4	Long Sequences.....	54
4.1	Comparing the Opponent's Branches.....	55
4.2	Comparing Counts or Move Values.....	66
4.3	Sentestrat and Orthodoxy.....	70
4.4	Thermography.....	74
4.5	Making a Hypothesis.....	83
5	Playing in an Environment.....	89
6	Early Endgame and Local Gote with Follow-ups.....	92
7	Local Endgame with One Player's Follow-up.....	131
7.1	Preparation.....	131
7.2	Late Endgame and Low Temperature.....	135

7.3	Late Endgame and High Temperature.....	138
7.4	Late Endgame and Comparison.....	146
7.5	Early Endgame and Low Temperature.....	150
7.6	Early Endgame and High Temperature.....	152
7.7	Early Endgame and Error Tolerance.....	155
8	Late Endgame and Local Gote with Follow-ups of Both Players.	155
8.1	General.....	156
8.2	Low Temperature.....	158
8.3	Medium Temperature with Larger Follow-up.....	160
8.4	Medium Temperature with Smaller Follow-up.....	163
8.5	High Temperature.....	167
8.6	Comparison.....	173
8.7	Alternative Study.....	174
9	Local Endgame with Gote and Sente Options.....	177
9.1	Late Endgame, Low Temperature and Creator.....	179
9.2	Late Endgame, Low Temperature and Preventer.....	184
9.3	Late Endgame, High Temperature and Creator.....	189
9.4	Late Endgame, High Temperature and Preventer.....	195
9.5	Late Endgame Conclusion.....	201
9.6	Early Endgame and Low Temperature.....	202
9.7	Early Endgame and High Temperature.....	205
10	Several Local Endgames Each with One Follow-up.....	209
11	Scoring.....	215
12	Microendgame.....	230
13	Appendix.....	233
13.1	New Theory.....	233
13.2	Inventors.....	237
13.3	Index.....	238
