Table of Contents

1 Introduction....................6

1.1 Overview....................6

1.2 Terms....................11

1.3 Table Legend....................12

1.4 Acknowledgements....................12

2 Basic Reading Theory....................13

2.1 Aims....................15

2.1.1 Aim and Complementary Aim....................15

2.1.2 Good Aims....................17

2.1.3 Secondary Aim....................19

2.1.4 One-Sided Status....................21

2.1.5 Modesty....................22

2.2 Imagining Sequences....................24

2.2.1 Theory....................24

2.2.2 Examples....................26

2.3 Choice....................28

2.3.1 Several Alternatives....................28

2.3.2 Successful Move....................30

2.4 Iteration....................33

2.4.1 Theory....................33

2.4.2 Example 1....................34

2.4.3 Example 2....................38

2.4.4 Conclusion....................44

2.5 Correct Reading....................44

2.5.1 Theory........44

2.5.2 Examples........45

2.6 Simplified Reading........48

2.6.1 Likelihood of Success........48

2.6.2 Good Purpose........52

2.6.3 Failures and Inferior Moves versus Interesting Moves........53

2.6.4 Symmetry and Equivalent Moves........57

2.6.5 Traversal........58

2.6.6 Reversion........61

2.6.7 Prior Knowledge........63

2.6.8 Important Moves........66

2.7 Regular Reading Method........68

2.7.1 Overview........69

2.7.2 Aim........69

2.7.3 Direction........70

2.7.4 Information........72

2.7.5 Order of the Conditions........73

2.7.6 Details........73

2.7.7 Principles........75

2.7.8 Examples Explaining the Method........76

2.7.9 Examples Applying the Method........85

2.8 Test Reading Method........96

2.8.1 Theory........96

2.8.2 Examples........98

2.9 Techniques........101

2.9.1 Obvious Move....................101

2.9.2 Eyespace....................102

2.9.3 Known Shape....................104

2.9.4 Liberty Shortage....................104

2.9.5 Miscellaneous....................105

2.10 Essential Status Knowledge....................105

3 Problems....................108

3.1 Important Moves....................108

3.1.1 Problems....................108

3.1.2 Answers....................110

3.2 Connection and Cut....................116

3.2.1 Problems....................116

3.2.2 Answers....................121

3.3 Block....................162

3.3.1 Problems....................162

3.3.2 Answers....................164

3.4 Capture and Prevented Capture....................174

3.4.1 Problems....................174

3.4.2 Answers....................181

3.5 Miscellaneous....................250

3.5.1 Problems....................250

3.5.2 Answers....................254

4 Conclusion....................261

5 Index....................262
